

Wave Truck

Heavy Duty Workboat

Hull Form

The Wave Truck is a powerful workhorse designed for heavy duty work in support of fish farm operations or inshore / harbour construction. Her shallow draft 'Landing Craft' hull form is designed to allow her to beach and she has a bow ramp for loading purposes. She can accommodate a large payload of over 20 tonnes and she has a 6.5 tonne metre hydraulic deck crane to enhance her versatility. She carries a compliment of 2 crew and 12 passengers in comfort within the deckhouse which incorporates a galley and a W.C. and a small mess room. The conventional propellers give her a top speed of 12 knots and she is highly manoeuvrable. She provides an invaluable asset for marine operations.

Principal Dimensions

Length overall:	13.95m
Beam overall:	5.0m
Weight:	13.5mt
Payload:	20mt
Operating Speed:	12kts

Main Features

- Port and starboard 980 litre fuel tanks
