

Wave Farmer

Fish Farm Workboat

Hull Form

The Wave Farmer is an aluminium alloy catamaran based upon the successful 'Wave Train' hull form which has been developed to provide a large working deck area whilst retaining excellent sea-keeping capabilities either in the planing or displacement mode. Used in a variety of roles from aquaculture to pollution control or as general cargo tenders, the Wave Farmers are extremely versatile vessels. They can be beached if necessary and they are readily customized to meet individual requirements; capable of being fitted with hydraulic cranes, grading machinery, over side lifting gear, winches or aft rollers.

Principal Dimensions	1200	1400
Length overall:	13.0m	15.0m
Beam overall:	5.0m	5.0m
Displacement (light):	8.0t	9.2t
Draft (light):	0.4m	0.5m
Speed (light):	20kts	20kts
Payload:	10.0t	15.0t

Main Features

- Large working deck
- High payload
- Hydraulic capstan
- Up to 8t/m hydraulic crane
- 2 x 500 litre fuel tanks
- Deck wash pump
- Suitable for regular beaching
- Supports substantial other equipment

Main Equipment

- 2 x 200–350bhp marine diesel engines
- 2 x 274 waterjets

Certification

- Lloyds Hull Structure Certificate
- MCA Workboat Standards
