

Wave Sprite

Small Support Boat

Hull Form

The Wave Sprite is a small symmetric catamaran vessel designed to provide a very stable working platform for inshore support operations. Her hull form gives her excellent stability, high maneuverability and a shallow draft.

She has built in buoyancy compartments and a raised wet deck to enhance performance and with a 30hp outboard she has a top speed of 15 knots.

Principal Dimensions

Length overall:	5.0m
Beam overall:	2.3m
Weight:	565kg
Payload:	500kg
Operating Speed:	14kts

Main Features

- Port & Starboard buoyancy tanks
- Shallow draft
- Excellent stability
- No maintenance

Main Equipment

- 1 x Outboard engine up to 30 bhp

Certification

- Lloyds Hull Structure Certificate
- MCA Workboat Standards
